HONOLULU, MAY 12, 1868. The weather continues wet. An unusual quantity of rain has fallen lately, which has interrupted the work on plantations, and should it continue for some time will no doubt injure our rice crep to some extent. Quite a number of our plantations are nearly through with taking of this year's crop; while others have stopped grinding for two or three months, and sugare will not come forward so freely for some to come as it has for the past four months.

On Sunday, 3d ult., the prisoner Eigen-class security. Went to the house of Ahu, (Chinaman), and The security Islaho and bark D C Nurray soiled on called for some article, which was denied Saturday, taking full cargoes and some 60 to 70 pass- him. An alterestion and scuffle ensued, during which Ahn received a severe stab in the neck, and another thrust in the back, which was elight, owing to the knife being turned by his clothes.

PRINCE ALFRED.-We have always hoped that the Galatas would visit Honolulu, but The Alaska is loading for Portland, to sail in a few have been informed that we were out of his route. The following item from the Melbourne Herald of Feb. 21, indicates that we may receive a call from the Prince:

By the last mail a letter was received by a By the last mall a letter was received by a gentleman in Adelaide, from one of the officers of the Galatea, stating that "H. R. R. the Duke of Edinburgh is to go from New Zealand to Tshiti, Honolulu, Callao, Valparaise, Faikland Islands, Monte Video, Rio, Demerara, Trinidad, Toboga, Grensda, and Bartuadoes, and thence home to Portsmonth, where he is to arrive in January, 1890. This is no yachting voyage, considering the Galatea must round Cape Horn in September."

CONCERT.-The Concert at Kawaiahao, on Saturday evening, for the sufferers in Kau, drew a large audience, and resulted in a fund of about \$300, for distribution. The music was well selected and pleasantly rendered. The accompaniment of the organ, was an addition to the former concerts given there. Choruses by the school children, and solos on the violin by Master McLean, also gave variety to the programme. The solo "I'd be a star," by Miss Davis, elicited great applanse. The concert was given under the patronage of the Hon. Mrs. Dominis and Hon. Mrs. Bishop, and we are glad that their efforts, in behalf of the people of Kau have been nobly seconded by the response of the public. Another Hawaiian Concert for the Kan sufferers will be given next week at the Kaumakapili Church.

#### Distribution of Medicines.

The Board of Health have received the following report from Lanai, of medicines sent their for distribution. From the report of the President of the Board we see that \$5,289 in medicines have been distributed during the biennial period.

HONOLULU, April 30th, 1868. HONOLULE, April 30th, 1888.

To His Ex. F. W. Histobison, President Board of Health, &c., Homolulu.

My Dran Sin,—I received about a year since a package of medicine from the Secretary of the Board, Hon. T. C. Henck, for distribution among the indigent sick of the Island of Lanai; and I now desire to report the disposition I have made of the medicine, and the sanitary condition of the district in which I reside.

winch i reside.

Seven cases of syphilis, as I suppose according to my imperfect medical knowledge, have come under my observation since receiving the medicine. I administered iedide of potassa and other medicines furnished by the Board, with very happy results in six of the seven cases. One case, a girl of about 17 years of age, who returned from Lahaina in a horrible ulcerated condition, and who was abandoned by her friends as hopeless, as a superpose, a corpee, and too fitty to wait upon; by the help of medicine, and some cicansing, and good food, is restored to health and activity. By a timely use of aperious medicines, liberally provided by the Board, I have had an opportunity to check many all-ments of children as well as of adults, which would have been neglected and have become ments of children as well as of actilits, which would have been neglected and have become aggravated, in a poor district, where there is neither medicine nor medical advice to be obtained. In respect to sphillis, the most fearful destroyer of the Hawaiian race, it is well to mention that, as far as I have observed, the mative bahanas do not pretend to be able to deal with It and do not tamper with the patient in such cases, the invariable rethe patient in such cases, the invariable re-mark being that, hook lasts, foreign medicines

the patient in such cases, the invariable remark being that, hook lans, foreign medicines alone are available in such cases.

I have given quinine and other antifebriles with very good results. The ointments for scabics, pusques, ac., have rendered excellent service to His Majosiy's poor subjects on Lanai. I have dispensed the medicines of the Board to about 65 applicants within a twelvemonth. The result has been very gratifying to me, and a slight enquiry among the people of Lanai, will convince any one that the natives of that island have the highest confidence in the efficacy of "foreign medicines," and highly appreciate the fostering care of their flower unent in sending medicines to them for gratultous distribution.

I beg to suggest to you, Mr. President, and to the Honorable Board, that it would be important in a sanitary point of view, to have a regular physician visit mouthly or quarterly the several districts of the Kingdom, with whom the dispensing agent could consult,

whom the dispensing agent could consult, who would determine exactly the character of allment, and consequently occasion a more intelligent application of relief in behalf of the indigent sick.

The health of the people of Lanal is generally very good. The worst cases of disease are those introduced by persons returning from the towns, or from work on the plantations. The island would soon become a prolific hive of humanity, if it could offer the requisite inducements to keep its own natives at home. We have 126 children under tives at home. We have 126 children under 15 years of age, out of a population of 450. There is a woman now living on my land and working for me, who has given birth to 16 children. Others have given birth to 11, 9, 8, and 7 children. The youths and maldens of the island are tempted away, and thus the population remains reduced by emigration and not by deaths. It could well support a population of of 50,000 souls and more.

I am Mr. President, your very obedient I am, Mr. President, your very obedie ervant, Walter M. Gisson. obedient

Mn. Entron:

I respectfully beg leave to inform you that
H. I. M.'s Commissioner and Consul has
placed in our hands the sum of 375 francs, to
be applied to the relief of the poor people
who have been injured by the earthquake of
the 2d instant, to be disposed of without any
distinction between Catholics and Protestants—misfortune being the only reason for
granting assistance. ranting assistance.

I have been very happy to comply with the

desire of Mr. Beranger, and you would oblige me very much by acknowledging in your paper the offering, and returning our thanks to our benefactor.

Your most ob't serv't. Cas. Pouzor, Hillo, April 20, 1868. Catholic Priest.

Cours.—The Alia has a letter from China, received by the last arrival, which furnishes the following: "Cores is a country and coast of which we know but little, and at the same of which we know but little, and at the same time a land which report says is rich in pre-cious metals, and a garden-spet of fertility. The loss of the American schooner General Sherman on the coast of the Corea peninsula during the early part of 187, and the report of the massacre of all the people on board, is a matter which has never been fally inves-tigated. Now a report reaches us that some of the crew escaped the sword, but are still held in bondage. So the U. S. steamer Shea-cashood, under command of Capitain Ferbiger, sells in a few days to investigate the General Necessary, disaster, and also to survey the emilosh, under command of Captain Ferbiger, salls in a few days to investigate the General Nerron's disaster, and also to survey the coast. Admiral Rowan, it is supposed, will bring orders to punish the barbarians. Such attempts all good men will hope to see crowned with success, and not thewarted like the French expedition which came to grief some months since, or even bring upon us the distress which overcame us at Formosa."
